MAJ. ENGELHARD FOR LIEUTENANT GOVERNOR.—Editor News: I heartily second the position of Capt. Wm. Biggs, editor Tarboro Southerner, that the Democratic press of the State is entitled to some consideration at the hands of the Greensboro Convention for its able, manly and maswerving devotion to the cause of the I therefore suggest the name of that m-

bane gentleman, accomplished scholar, able writer and eloquent speaker, Maj. J. A. Engelhard, of the Wilmington Journal, for the position of Lieutenant-Governor of North Carolina.

Maj. Engelhard is in every way admirably qualified for the position, and if firm devotion to principle, patriotic service to the party and advocacy of the rights of the people, are taken into consideration. few men in North Carolina are more worthy of promotion than he.

For the Journal. The Pleasures by the Sea-The Pro-posed Railroad to the Sound. Editor:-Now that the projected Railroad between this city and the sea coast is being pushed forward, (and I hope with success,) it has occurred to the writer that a short recital of some few of the enjoyments to be realized by the visitor to these parts would not be out of place

Perhaps no region upon the entire Atlantic coast of North America offers so many attractions to the refugee from the heats of Summer, and the seeker after health and quiet pleasure, as the eastern shores of the State of North Carolina. The whole coast from Virginia to near

the mouth of Cape Fear river, is bordered

by a succession of sounds, or inland seas, separated from the ocean by islands and ong and narrow ridges of sea sand. Included in these are the great bodies of water known as Pamlico, Albemarle and Cove sounds. These waters are navigable for a large class of vessels, the lands adjacent exceedingly fertile, and an immense trade is carried on here in the production and export of corn, peas, turpentine and other North Carolina products to the North, and more particularly to the growing city of Wilmington, whose harbor frequently presents the spectacle of quite a fleet of the trim and storm helitile "corn crackers" as by are termed, being schooners averaging Letween 10 and 150 tons burthen, of very light draught of water, and capable of entering in a ress of weather, any of the many inlets which occur along the low and sandy coast. But it is not of this portion of the State that we wish to write. Our aim is, if possible, to revive some few of the pleasant memories connected with that portion of New Hanover county embraced in the pleasant little villages of Wrightsville and dasonboro, locations rendered sa red by war path. We learn that Stephen Lowrey | time honored associations and hallowed and Andrew Strong robbed the residence | recollections of the "long ago," and now being brought prominently forward by the proposition of building a railroad connect-Tuesday last, of a fine double-barreled ing the two villages with Wilmington, thus gun. Soon the fish, finding themselves gradually compressed into narrow quarters, dart rapidly about, many escaping by leaping over the cork line into the sea beyond. This pleasure is enhanced if by your side a light and youthful step is heard, the merry laugh rings out upon the air, and beneath the shade of the ample straw hat glisten two orbs rivaling in their azure depths the distant atmospheric hue, and those golden mights, wafied by the breeze, dance and sparkle in the sonlight. Having already exceeded the limits assigned to newspaper correspondents, I will defer a notice of one of the most pleasant attractions which will be brought within the reach of our citizens-the noble and beautiful sport of yachting. One of the between 25 and 30 fine boats, existed here in the good old ante-bellum times, and "Carolina," still flaunts her banner to the breeze, and awaits new conquests.

All these pleasures can be realized again if our citizens but make a slight effort to build the Railroad. WILMINGTON MARKETS,

FOR THE WEEK ENDING THURSDAY, May 2, 1872.

Corron.-This staple has been very quiet since our last report, with only a limited demand. In the earlier part of the period under review the market was dull and inactive, with very few transactions, which were made at % of a cent off. On Monday, however, the advices were better, creating a strong feeling among holders, and an advance of fully % cents was gained. Sellers, to some extent, are not offering their stocks freely, but are awaiting the summer demands. The receipts have been very light but without shipments of any magnitude, the stock has not been either increased or diminished, and remains about the same as last week. The receipts at all ports show a decided falling off, and for the week are 26,512 bales against 38,981 bales last week, 35,153 bales the previous week, and 36,062 bales three weeks since, making the total receipts since the first of September, 1871, 2,564,652 bales against 3,570,759 bales for the same period of 1870-'71, showing a decrease since September 1st, this year, of 1,006,107 bales. The exports for the week reach a total of 28,971 bales, of which 17,316 were to Great Britain; 7,417 to France, and 2,208 to rest of the Continent, while the stocks as made up are now 270,164 bales. The exports from the port of Wilmington for the month of April, 1872, are 3,497 bales against 3,404 bales for the corresponding month of 1871, showing an increase over 1871 of 93 bales. The following comprise the sales for the week: Friday, 6 bales at 21 cents, 12 do. at 21% cents, 26 do. at 21% cents; Saturday, 87 bales at 22 cents; Monday, 55 bales at 22 cents, 4 do. at 21 cents, 10 do. at 21 1/2 cents, 12 do. at 21 1/2 cents, 40 do. at 22 % cents, and 18 do. at 22 % cents; Tuesday, 10 do. at 21 cents, 36 do. at 22 cents, 11 do. at 22 g cents, and 12 do. at 22% cents; Wednesday, 14
